Brine Overflow Safety Valve	❖	❖	❖
Insulated Tank Jackets on 9" & 10" Units		❖	❖
Soft Water Brine Refill		❖	❖
High Efficiency Counter-Current Regeneration		❖	❖
Uses 30% Less Salt per Regeneration*		❖	❖
Uses 50% Less Water per Regeneration**			❖
Fully Programmable			❖
Adjustable Regeneration Cycles			❖
Calendar Clock Override			❖
LED Display at a Glance			❖

*Metermatic SE and Metermatic use 30% less salt than Econoflo

**Metermatic SE uses 50% less water than Econoflo and 45% less water than Metermatic

Note: Metermatic SE and Metermatic softeners achieve a salt and water savings over Econoflo softeners due to the difference in the factory settings of comparable size products. It is recommended the factory settings remain unchanged, but adjustments may be made in the field.

All Water Softeners are NOT the same!

NOVATEK®

Available From:

NOVATEK®

Choose from three different Softeners

Econoflo

Econoflo makes your life a little softer and will save you money now and in the years to come.

The Econoflo Water Softener Features:

- ❖ Demand regeneration control valve monitors water use, regenerating as necessary to save salt and water, **guaranteed for 5 years**
- ❖ Heavy duty cabinets, brine tanks and mineral tanks with a **10 year guarantee**
- ❖ Choice of cabinet or twin tank styles
- ❖ Bypass valve for ease of installation and service
- ❖ Brine safety valve for additional overflow protection
- ❖ Internal upper screen to prevent resin loss
- ❖ Designed for simple operation and service

Metermatic

The Metermatic is kinder to the environment and will save you even more money than Econoflo.

The Metermatic Water Softener Features

The MI water softener offers all the features of the Econoflo plus these additional benefits:

- ❖ Exclusive Novatek composite meter control valve with a **7 year guarantee**
- ❖ Heavy duty cabinets, brine tanks and mineral tanks with a **lifetime guarantee**
- ❖ Attractive contemporary cabinets or traditional twin tank styles
- ❖ Counter-current regeneration and high efficiency brining yield maximum capacity per pound of salt
- ❖ Soft water refill improves brine efficiency
- ❖ Tank jacket reduces condensation (9" & 10" twin tank models)

Metermatic SE

Using up to 50% less salt and less water than a conventional calendar clock softener, SE is a true friend to the environment and will help you save the most money!

The Metermatic SE Water Softener Features

The SE water softener offers all the features of the MI plus these additional benefits:

- ❖ Exclusive Novatek composite electronic meter control valve with a **7 year guarantee**
- ❖ Exclusive SE turbine meter accurately and efficiently monitors water usage
- ❖ LED displays time of day, remaining capacity and regeneration cycles in progress
- ❖ Microprocessor retains information and settings indefinitely
- ❖ User-friendly push button controls
- ❖ 110 volt to 24 volt transformer included
